Introduction

The service charge budget report is intended to provide details of the planned expenditure for the forthcoming service charge year.

The service charge has been in operation since 2014. The introduction of the service charge was necessary due to there being communal structures, services and areas.

As a consequence of there being limited service charge history, the service charge budget is an assessment of anticipated expenditure. The service charge is reviewed annually and subsequent budgets reflect more accurately the services required and the expenditure incurred.

The Property

The property comprises of three units with communal car parking/servicing, two access points from Kingsbury Road. To the rear of the site is a canal, to the side are residential dwellings.

The common parts serving the whole property do not include the buildings which are let in their entirety to the tenants. The Common parts include the vehicular access, car parking and the boundary walls/fences.

Voids and Concessions

The service charge for any void lettable units or attributable to any service charge concessions is the responsibility of the Landlord.

VAT

The Landlord has elected the property for VAT.

The service charge payable will have VAT charged at the standard rate.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged to tenants for late payment of service charge is credited to the service charge.

Reserve Fund

There is no reserve fund.

Service Charge Objectives

The object of this budget report is to provide clear explanation of the planned service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the leaseholders to budget accurately for the forthcoming year.

We encourage leaseholders to provide comments on the format and/or the information contained in this report which would assist in the report being improved for the benefit of all concerned. We would also welcome constructive feedback on the communal services provided at the property.

As Managing Agents, Johnson Fellows aim to provide a high quality management service in order to provide a well maintained environment, and delivering value for money for the service charge expenditure.

The service charge is administered having regard to Service Charges in Commercial Property; RICS Code of Practice.
