Introduction

The service charge budget report is intended to provide details of the planned expenditure for the forthcoming service charge year.

A service charge is required for the upkeep of the communal structures, services and areas benefiting the occupiers.

The service charge is reviewed each year so the budgets reflect accurately the services required and the expenditure incurred.

The Property

The property comprises of a three storey office building. To the rear is a car park and service access to the offices with vehicular access from Millfield Court.

The common parts serving the whole property include the main structure and the external elements of the building, the car park and the boundary walls/fences. The communal areas also include the front ground floor entrance to the building, reception, stairs to the first and second floor offices and toilets on the first floor.

In addition to the common areas of the building, there are common services including cleaning, heating and all utilities, including electricity consumed within the office suites.

As Managing Agents, Johnson Fellows are appointed to undertake the financial administration of the service charge and facility management of the contracts, ensuring that they are periodically tendered and provide value for money. The actual on-site property management is undertaken directly by our client.

Voids and Concessions

The service charge for any void lettable units or attributable to any service charge concessions is the responsibility of the Landlord.

VAT

The Landlord has elected the property for VAT. Consequently the service charge budget is stated net of VAT which is charged at the standard rate.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Reserve Fund

There is no reserve fund.

Service Charge Objectives

The object of this budget report is to provide clear explanation of the planned service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the leaseholders to budget accurately for the forthcoming year.

We encourage leaseholders to provide comments on the format and/or the information contained in this report which would assist in the report being improved for the benefit of all concerned. We would also welcome constructive feedback on the communal services provided at the property.

The service charge is administered having regard to Service Charges in Commercial Property; RICS Code of Practice.

Service Charge Apportionment

The service charge operates for the whole property as defined in the lease documents. The apportionment percentages for each lessee are noted within the Service Charge Apportionment Schedule, as detailed in Appendix A.

All tenants are liable for contributing towards all expenditure.

The apportionment of the service charge has regard to the NIA of the accommodation, using the areas adopted by the letting agents.

Budget Commentary

SCHEDULE 1 – Whole

All figures are shown net of VAT

- **Cleaning** **£4,300**

The contract cost for the cleaning of the common areas, office suites and windows together with toilet supplies. The budget has been reduced from last year, reflecting slightly lower consumption of toilet supplies.

- **Refuse** **£1,000**

The contract cost for the refuse removal, comprising one Euro bin emptied periodically. The budget has been slightly increased reflecting the actual expenditure.

- **Drain Maintenance** **£250**

We have included a contingency, reflecting the costs to unblock the drain in 2018.

- **Repairs – External** **£500**

We have included the same contingency as last year, to allow for any unforeseen repairs required to the structure and external parts of the property.

- **Repairs – Internal** **£500**

We have included the same contingency as last year for any unforeseen repairs required to the internal common parts.

- **Electricity Supply** **£2,000**

There is a single electricity supply to the whole property, including all office suites. The budget has been slightly increased to reflect actual costs.

- **Gas Supply** **£2,000**

There is a single gas supply for the boiler providing heating and hot water. The same budget has been maintained as last year.

- **Water Charges** **£400**

There is a single metered water supply for the property. The budget has been kept at the same level as last year.

- **Satellite/TV Aerial** **£145**

The cost of the TV licence in the reception area.

- **Health & Safety** **£500**

The cost of the annual health and safety inspection of the building, the same as last year, but detailed under its own budget heading.

- **Statutory Compliance** **£1,000**

This budget includes the periodic testing of the fire alarm and emergency lighting, fire extinguishers and water. The budget has been reduced, reflecting the more accurate allocation of health & safety inspection and central heating maintenance costs to other budget headings.

- **Central Heating Maintenance** **£2,400**

The cost of the maintenance contract for the central heating together with a contingency for repairs.

- **Management Fee** **£1,368**

This figure represents the fee to administer the service charge. It is a fixed fee indexed linked annually to RPI.

- **Facilities Manager** **£536**

This figure represents the fee to administer and re-tender the contracts. It is a fixed fee indexed linked annually to RPI.

Total

- Schedule 1** **£16,899**

This represents an increase of £410 to the previous year's budget, reflecting 2.5%.
