Introduction

This report has been produced by Johnson Fellows on behalf of the Landlord, Tesco Stores Ltd. It is intended to provide details of the planned expenditure for the service charge period 24th June 2018 to 23rd June 2019.

Enclosed within this report is a copy of the Service Charge Variance Schedule and Service Charge Apportionment Schedule.

The service charge is administered having regard to RICS Practice Standards; Service Charges in Commercial Property; 3rd Edition, Code of Practice.

The Property

The property is located on Egham High Street, approximately half a mile from the A30 Egham By-Pass, which leads to Junction 13 of the M25 Motorway one mile to the north.

The property is of steel framed construction with brick elevations. It is part single storey and part three storey. The ground floor consists of a Tesco Superstore. There are first and second floor offices above to the front section of the building.

The offices are accessed via a separate entrance from High Street. The entrance foyer leads to a dedicated communal staircase. Male and female toilets are provided at first and second floor landing levels.

The communal services provided for the property consist of the upkeep and maintenance of the internal office entrance, staircase and toilets, electricity and gas supplies, associated statutory compliance and the external upkeep of the front section of the building to which the offices form part. Tesco is directly responsible for the maintenance of the structure and roof for the rear single storey Superstore.

Service Charge Objectives

The objective of Johnson Fellows as Managing Agent is to provide a high quality management service. In so doing we aim to provide a well maintained environment, delivering value for money for the service charge expenditure.

The objective of this budget report is to provide a clear explanation for recovery of the service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the tenants to budget accurately for the forthcoming period.

Should any occupier have comments on the format, or the information contained in this report which would assist in the report being improved for the benefit of all concerned, these comments would be welcomed. We would also welcome constructive feedback on the communal services provided at the property.

VAT

The property is elected for VAT, consequently the expenditure stated within this report is net of VAT.

Voids and Concessions

Where any void units exist, the responsibility for the service charge rests with the Landlord. The second floor offices are currently vacant.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on the late payment of service charge by tenants is to be credited to the service charge.

Reserve Fund

There is no reserve fund.

Service Charge Apportionment

The apportionment for each schedule is detailed within the Service Charge Apportionment Schedule attached at Appendix A.

Schedule One Office Occupiers Only

Schedule Two All Occupiers

There are two separate schedules set up. The occupiers of the first and second floor offices contribute towards Schedule One. All occupiers contribute towards Schedule Two.

The apportionment percentages are calculated based on net internal floor areas. Costs that are shared between both schedules for items such as Management and Auditors Fees have been apportioned between the schedules based approximately on the total expenditure within each schedule.
