Introduction

This report has been produced by Johnson Fellows on behalf of the Landlord, Harborne High Street Management (2) Ltd. It is intended to provide details of the planned expenditure for the service charge year 26th March 2021 to 25th March 2022.

The service charge is administered having regard to Service Charges in Commercial Property; RICS Professional Statement, 1st Edition.

The Property

The property is located on Harborne High Street and comprises nine retail units, with first and second floor accommodation, the majority of which is residential, accessed from the rear car park adjoining St Johns Road. However, three of the units use the upper floors for ancillary commercial purposes, with access from the ground floor units.

The car park to the rear is held under separate ownership. Historically it was agreed that the Management Company will contribute towards its repair and maintenance costs. However, recharges have never been received.

The communal services provided for the property consist of items such as pest control and electricity for the communal lighting. There is also a small forecourt area fronting St Johns Road, which is repaired and maintained via the service charge. Although the roof and balconies are the responsibility of the individual long leaseholders, by common agreement they are also repaired and maintained via the service charge. This does not include the rear extensions which remain the responsibility of each individual long leaseholder.

Service Charge Objectives

The objective of Johnson Fellows as Managing Agent is to provide a high quality management service. In so doing we aim to provide a well maintained environment, delivering value for money for the service charge expenditure.

The objective of this budget report is to provide a clear explanation for recovery of the service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the tenants to budget accurately for the forthcoming year.

Should any occupier have comments on the format, or the information contained in this report which would assist in the report being improved for the benefit of all concerned, these comments would be welcomed. We would also welcome constructive feedback on the communal services provided at the property.

VAT

The property is not elected for VAT, consequently the expenditure stated within this report is gross of VAT.

Voids and Concessions

Where any void units exist, the responsibility for the service charge rests with the Landlord. There is no void accommodation.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on the late payment of service charge by tenants is to be credited to the service charge.

Reserve Fund

Following completion of the roof replacement works, the reserve fund has been closed down.

Service Charge Apportionment

The apportionment for each schedule is detailed within the Service Charge Apportionment Schedule attached at Appendix A.

Schedule One All Long Leaseholders

Schedule Two All Long Leaseholders, except 61 High Street

There are two separate schedules as Central Midland Estates, the long leaseholder of 61 High Street, is responsible for their own buildings insurance and for the repair and maintenance of their front and rear roof/canopy areas under the terms of their lease. Therefore they do not contribute towards the buildings insurance or any repairs and maintenance associated with the communal front and rear roof/canopies.

Shared costs for items such as Management and Auditors Fees have been apportioned between the schedules based upon the total net costs for each schedule.
