## **Introduction**

This report has been produced by Johnson Fellows on behalf of the Landlord, Tesco Stores Ltd. It is intended to provide details of the expenditure incurred during the service charge period 29<sup>th</sup> September 2020 to 28<sup>th</sup> September 2021.

Enclosed within this report is a copy of the Service Charge Variance Schedule and Service Charge Apportionment Schedule.

The service charge is administered having regard to RICS Professional Statement; Service Charges in Commercial Property; 1st Edition.

## **The Property**

The property is located off the A329 Oxford Road, which forms one of the main arterial routes into Reading from the west. The town centre is approximately 1 mile to the east and Reading West railway station lies less than ½ a mile to the east. Junction 4 of the M4 Motorway is approximately 3½ miles to the south.

The property is of steel framed construction with brick and clad elevations under a pitched roof. The main block, Cholsey House, is two storey with retail units to the ground floor and a mix of commercial and residential apartments to the first floor. Adjoining Cholsey House is the entrance to Winterbrook House, which provides housing association apartments above the Tesco Extra store.

An archway through Cholsey House gives access to a secure gated car park to the rear. The car park is shared between the residential occupiers and the commercial offices on the first floor of Cholsey House.

A secondary open car park is located to the front of the property for the benefit of the customers of the commercial units.

The communal services provided at the property consist of the cleaning and landscaping to both car parks, the external upkeep and maintenance of Cholsey House & Winterbrook House and the fire alarm to the first floor of Cholsey House. Tesco is directly responsible for their store and the areas immediately surrounding it.

## **Service Charge Objectives**

The objective of Johnson Fellows as Managing Agent is to provide a high quality management service. In so doing we aim to provide a well maintained environment, delivering value for money for the service charge expenditure.

The objective of this report is to provide a clear explanation of the service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency.

Should any occupier have comments on the format, or the information contained in this report which would assist in the report being improved for the benefit of all concerned, these comments would be welcomed. We would also welcome constructive feedback on the communal services provided at the property.

## **VAT**

The property is elected for VAT.

The VAT on the service charge expenditure attributable to the residential elements of the property cannot be recovered, so the gross expenditure is applied. The VAT on the commercial expenditure can be recovered, consequently the net costs plus VAT are applied, enabling the commercial leaseholders to recover the VAT charged to them.

## **Voids and Concessions**

Where any void units exist, the responsibility for the service charge rests with the Landlord.

## **Banking**

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on the late payment of service charge by tenants is to be credited to the service charge.

## **Reserve Fund**

There is no reserve fund.

## **Service Charge Apportionment**

The apportionment for each schedule is detailed within the Service Charge Apportionment Schedule attached at Appendix A.

Schedule One:	Rear Car Park – Residential (Gross)
Schedule Two:	Cholsey House Building – Commercial (Net)
Schedule Three:	Cholsey House Building – Residential (Gross)
Schedule Four:	Upper Floor Cholsey House – Commercial (Net)
Schedule Five:	Upper Floor Cholsey House – Residential (Gross)
Schedule Six:	Winterbrook House Building – Residential (Gross)
Schedule Seven:	Front Car Park – Commercial (Net)
Schedule Eight:	Rear Car Park – Commercial (Net)

There are eight separate schedules set up for the service charge year. The different schedules reflect the split of the shared costs between the commercial and residential elements. The rationale behind our splitting the shared costs for the residential and commercial leaseholders is purely due to VAT. Residential properties are not able to recover VAT, therefore the expenditure detailed is inclusive of VAT (Gross). The commercial leaseholders are able to recover VAT, therefore the expenditure for the commercial element is net of VAT.

The two residential elements and the first floor offices of Cholsey House contribute towards Schedules One and Eight. The apportionment is based on the number of car spaces allocated and the costs are split between the two schedules on a commercial/residential (net/gross) basis. Schedules Two and Three are contributed towards by all occupiers of Cholsey House. The costs are apportioned based on floor area and are split between the two schedules on a commercial/residential (net/gross) basis. Schedules four and five are for the first floor commercial and residential accommodation of Cholsey House. These are again apportioned based on floor area and split between the two schedules on a commercial/residential (net/gross) basis. Schedule Six is solely contributed towards by Southern Housing and on a gross basis. Schedule Seven, which is for the benefit of the commercial occupiers of Cholsey House, is also apportioned based on floor area and is net of VAT.

Costs that are shared between several schedules for items such as Management and Auditors Fees have been apportioned between the schedules based approximately on the total expenditure within each schedule.

#### Independent Accountant's Review Report

To the Manager, Battle Hospital, Oxford Road, Reading

We have reviewed the statement of service charge expenditure for the above property for the year ended 28 September 2021. The statement of service charge expenditure has been prepared by the Manager in accordance with guidance issued by the RICS in the Code of Practice, Services Charges in Commercial Property, Third edition.

#### Manager's Responsibility for the Statement of service charge expenditure

The Manager is responsible for the preparation of the statement of service charge expenditure and for such internal control as the Manager determines is necessary to enable the preparation of statements that are free from material misstatement, whether due to fraud or error.

#### Reporting Accountant's Responsibility

Our responsibility is to express a conclusion on the statement of service charge expenditure based on the procedures we have performed and the evidence we have obtained. We conducted our review in accordance with International Standard on Review Engagements (ISRE) 2400, Engagements to Review Historical Financial Statements (Revised). ISRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the statement of service charge expenditure, taken as a whole, is not prepared in all material respects in accordance with the provisions of the Code of practice 'Service charges in commercial property' issued by the RICS. ISRE 4000 (Revised) also requires us to comply with relevant ethical requirements.

A review of a statement of service charge expenditure in accordance with ISRE 2400 (Revised) is a limited assurance engagement. The reporting accountant performs procedures, primarily consisting of making inquiries of management and others responsible for the services that comprise the service charge on this property, as appropriate, and applying analytical procedures, and evaluates the evidence obtained. The procedures do not include review of the allocation or apportionment of service charge expenditure to occupiers.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing. Accordingly, we do not express an audit opinion on the statement of service charge expenditure.

#### Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the statement of service charge expenditure is not prepared, in all material respects, in accordance with the provisions of the Code of practice 'Service charges in commercial property' issued by the RICS.

#### Basis of Accounting, and Restriction on Distribution and Use

Our report is made in accordance with the terms of our engagement and is intended solely for the Manager to issue to current occupiers. This report should not be distributed to or used by other parties. Our work has been undertaken to enable us to make this report to the Manager and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility or liability to anyone other than the Manager in connection with the report or this engagement.
