Introduction

This report has been produced by Johnson Fellows on behalf of the Landlord, W Wing Yip Commercial Ltd. It is intended to provide details of the planned expenditure for the service charge period 1st October 2024 to 30th September 2025.

Enclosed within this report is a copy of the Service Charge Budget Schedule and Service Charge Apportionment Schedule.

The service charge is administered having regard to RICS Professional Statement; Service Charges in Commercial Property; 1st Edition.

The Property

Dragon Retail Park is a new constructed out of town retail park, which comprises four units with associated car parking.

The property is located on the A4161 Newport Road, one of the principal arterial routes into Cardiff City Centre, which lies approximately 2 miles to the south west. Direct access to the M4 motorway is 5 miles to the north east via the A48. This in turn links to the city of Newport approximately 10 miles away.

There are two customer vehicle access points into the site, directly from Newport Road and Ipswich Road. A further service entry is provided from Ipswich Road to the rear of Units 1 & 2.

The primary services provided at the site are cleaning, landscaping and external repairs of the communal parts.

Service Charge Objectives

The objective of Johnson Fellows as Managing Agent is to provide a high quality management service. In so doing we aim to provide a well maintained environment, delivering value for money for the service charge expenditure.

The objective of this budget report is to provide a clear explanation for the recovery of the service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the tenants to budget accurately for the forthcoming period.

Should any occupier have comments on the format, or the information contained in this report which would assist in the report being improved for the benefit of all concerned, these comments would be welcomed. We would also welcome constructive feedback on the communal services provided at the property.

VAT

The property is elected for VAT, consequently the expenditure stated within this report is net of VAT.

Voids and Concessions

Where any void units exist, or the lease provisions do not permit the full recovery, the responsibility for the service charge rests with the Landlord.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on the late payment of service charge by tenants is to be credited to the service charge.

Reserve Fund

There is no reserve fund.

Service Charge Apportionment

The apportionment is detailed within the Service Charge Apportionment Schedule attached at Appendix A.

The expenditure is arranged over two schedules. Schedule 1 covers the services for the main communal areas of the estate and customer car park. All occupiers contribute towards this. Schedule 2 is for the expenditure relating to the service road to the rear of Units 1 and 2. Only the occupiers of Units 1 & 2 contribute towards this.

Under the terms of the individual lease, the tenants are responsible for the maintenance and upkeep of the exterior and structure of their units.

The apportionment split is based on the gross internal floor area of the individual units against the estate as a whole. Costs that are shared across both schedules are split based on the remaining expenditure within each schedule. The current split is 93% Schedule 1 and 7% Schedule 2.
