Introduction

The service charge budget report is intended to provide details of the planned expenditure for the service charge year.

A service charge is necessary due to there being communal structures, areas and services.

The Property

The property comprises of a number attached buildings with units used for retail, leisure, office and residential purposes. To the side and rear of the buildings is an access road and two service areas.

The common parts include the main structure and the external elements of the buildings (but not the shop frontages), the vehicle access way, service yards and the boundary walls/fences. The internal communal areas for the offices just serve a limited number of the office suites and include the entrance and stairs.

Not all leaseholders are responsible for contributing to all service charge expenditure for the property. For this reason, service charge schedules are used, details of which are set out below.

Service Charge Objectives

The object of this budget report is to provide clear explanation of the planned service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the leaseholders to budget accurately for the forthcoming year.

We encourage leaseholders to provide comments on the format and/or the information contained in this report which would assist in the report being improved for the benefit of all concerned. We would also welcome constructive feedback on the communal services provided at the property.

As Managing Agents, Johnson Fellows aim to provide a high-quality management service in order to provide a well-maintained environment and delivering value for money for the service charge expenditure.

The service charge is administered having regard to Service Charges in Commercial Property; RICS professional statement 1st edition.

Voids and Concessions

The service charge for any void lettable units or attributable to any service charge concessions is the responsibility of the Landlord.

VAT

The Landlord has elected the property for VAT.

The service charge payable by the commercial lessees has VAT charged at the standard rate. The service charge payable by the leaseholders of the residential maisonettes is charged

inclusive of VAT, as the landlord is unable to recover the VAT on this part of the service charge expenditure.

As a result of the different VAT status of occupiers, service charge schedules are used.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence, the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

- Holden Phase 2 £500
- Whole (Schedule 7) £0

Service Charge Apportionment

The service charge operates for the whole property as defined in the lease documents. The apportionment percentages for each lessee are noted within the Service Charge Apportionment in Appendix A. They are based upon the GIA calculated in accordance with the RICS Code of Measuring Practice, 6th Edition following the property being measured by Johnson Fellows.

A number of service charge schedules are used for the apportionment of the service charge expenditure. The Schedules are detailed below.

Schedule 1 – Astor House Internal Offices

There are a number of office suites (A, B, C, D and 2) which are accessed via a communal entrance and stairs. They also benefit from communal services including heating.

The budget shown in Schedule 1 is stated exclusive of VAT.

Schedule 2 – Astor House

All leaseholders within Astor House contribute to this schedule. The expenditure within this schedule includes the repair and maintenance of the structure and external parts of the building and fire alarm, but not the shop fronts.

Schedule 3 – 290 Lichfield Road (Commercial)

The ground floor retail unit of 290 Lichfield Road has been split into three units with two maisonettes situated above.

Two separate schedules have been adopted for 290 Lichfield Road due to the VAT status of the residential maisonettes, with Schedule 3 allocated 72% for the commercial units and Schedule 4 allocated 28% for the maisonettes. This split reflects the total floor area of the commercial units and the residential maisonettes.

The expenditure within this schedule includes the repair and maintenance of the structure and external parts of the building.

The expenditure in Schedule 3 is shown exclusive of VAT.

Schedule 4 – 290 Lichfield Road (Residential)

This schedule is for a share (28%) of expenditure also detailed in Schedule 3, which is attributable to the maisonettes.

The budget is shown **inclusive** of VAT

Schedule 5 – Holden Way Phase 1

This schedule comprises of ground floor units with the part of the gym immediately above at first floor. The expenditure within this schedule includes the repair and maintenance of the structure and external parts of the building and is shown exclusive of VAT.

Schedule 6 – Holden Way Phase 2

This schedule comprises of one ground floor unit with part of the gym at first floor above. The expenditure within this schedule includes the repair and maintenance of the structure and external parts of the building and is shown exclusive of VAT.

Schedule 7 – All Tenants

The expenditure included in this schedule relates to the external communal areas, towards which all commercial leaseholders contribute.

The two maisonettes are excluded from this schedule as the residential tenants do not use the service yards or access road.
