Johnson Fellows. Charter House, Newhall Street, Birmingham, B3 1SW

Introduction

This report has been produced by Johnson Fellows on behalf of the Landlord, Right Investments Limited. It is intended to provide details of the planned expenditure for the forthcoming service charge year.

The Property

The property is within Banbury town centre fronting Broad Street which has been pedestrianised. It comprises of two retail units and second floor residential flats with their communal entrance situated at the rear of the building. It includes the service yard and car park to the rear of the retail units.

The external communal areas maintained are the service yard and car park, together with external and structural parts of the buildings. The external fire escape stairs and internal stairwell and corridor exclusively serve the residential tenants.

Service Charge Objectives

The object of this budget report is to provide clear explanation of the planned service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the leaseholders to budget accurately for the forthcoming year.

We encourage leaseholders to provide comments on the format and/or the information contained in this report which would assist in the report being improved for the benefit of all concerned. We would also welcome constructive feedback on the communal services provided at the property.

As Managing Agents, Johnson Fellows aims to provide a high-quality management service in order to provide a well maintained environment, and delivering value for money for the service charge expenditure.

The service charge is administered having regard to the RICS professional statement, Service Charges in Commercial Property; 1st edition.

Voids and Concessions

The service charge for any void lettable units or attributable to any service charge concessions is the responsibility of the Landlord.

VAT

The Landlord has elected the property for VAT.

The service charge payable by the commercial lessees will have VAT charged at the standard rate.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is

maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on late payment of service charge by tenants is to be credited to the service charge.

Reserve Fund

There is no reserve fund.

Service Charge Apportionment

The service charge provisions are set out in each tenant's lease. These consistently provide for each tenant to pay a due proportion of the service charge which is attributable to each tenant's premises.

The landlord pays the contribution for the residential flats.

The apportionment percentages will be reviewed periodically should circumstances change.

Schedule 1 – This schedule purely serves the residential units and includes the internal shared areas and fire escapes.

Schedule 2 – This schedule includes all commercial tenants and covers the structure of the property and external common areas. The costs for this schedule are calculated as 68.23% of the total costs with the remainder being allocated to Schedule 3.

Schedule 3 – This schedule includes all the residential flats and covers the structure of the property and external common areas. The costs for this schedule are calculated as 31.77% of the total costs with the remainder being allocated to Schedule 2.

Schedules 2 & 3 are required due to the different VAT status of the residential and commercial units.

The service charge percentage apportionments are detailed in Appendix A.
