Introduction

This report has been produced by Johnson Fellows on behalf of the Landlord, W Wing Yip & Brothers Property and Investments Ltd. It is intended to provide details of the planned expenditure for the service charge period 1st October 2025 to 30th September 2026.

Enclosed within this report is a copy of the Service Charge Variance Schedule and Service Charge Apportionment Schedule.

The service charge is administered having regard to RICS Professional Statement; Service Charges in Commercial Property; 1st Edition.

The Property

The property is located on the A23 Purley Way within the Greater London town of Croydon. It lies approximately 1 mile from Croydon town centre, which is 10 miles to the south of the City of London. Motorway access is via J7 of the M25, 7 miles to the south.

The Business Centre is a purpose built 2 storey retail premises, occupying a shared site with the Wing Yip Superstore. It has brick facades under a pitched tiled roof. The site includes surface car parking, together with an upper deck car parking above the newly extended Superstore.

Internally the Business Centre is arranged as a small shopping mall. There are a mixture of retail, office and restaurant units over two levels, with a central staircase and a balcony style walkway.

The primary services provided for the property consist of internal and external cleaning of communal parts, utility consumption, lift maintenance, waste management, site security and external landscaping and maintenance.

Service Charge Objectives

The objective of Johnson Fellows as Managing Agent is to provide a high quality management service. In so doing we aim to provide a well maintained environment, delivering value for money for the service charge expenditure.

The objective of this budget report is to provide a clear explanation for the recovery of the service charge expenditure on a not for profit/not for loss basis. It is also to promote clarity and transparency and to allow the tenants to budget accurately for the forthcoming period.

Should any occupier have comments on the format, or the information contained in this report which would assist in the report being improved for the benefit of all concerned, these comments would be welcomed. We would also welcome constructive feedback on the communal services provided at the property.

VAT

The property is elected for VAT, consequently the expenditure stated within this report is net of VAT.

Voids and Concessions

Where any void units exist, the responsibility for the service charge rests with the Landlord.

Banking

Due to the general level of service charge funds, they are not maintained within a discrete bank account. The funds are held within the Johnson Fellows Clients Account which is maintained with Barclays Bank plc. As a consequence the service charge is not credited with any interest, neither are any bank charges allocated to the service charge.

Interest charged on the late payment of service charge by tenants is to be credited to the service charge.

Reserve Fund

A Reserve Fund has been inherited from the previous regime. However, there is currently no ongoing collection within the service charge budget. The balance held at the end of the previous service charge year was £28,856.09. Funds are held in a discrete bank account to obtain interest. The account is maintained with Barclays Bank plc, Kidderminster branch.

The funds will be used for future major items of expenditure.

Service Charge Apportionment

The apportionment for each schedule is detailed within the Service Charge Apportionment Schedule attached at Appendix A.

In total there are three separate schedules. Schedule One is contributed towards by all occupiers. Schedule Two is for the refuse costs of the non restaurant occupiers. Schedule Three is for the services associated purely with the restaurants.

Schedule One	All Occupiers – General Business Centre and Estate Costs
Schedule Two	Business Centre Occupiers Excluding Restaurants – Refuse Costs
Schedule Three	Restaurant Occupiers

The apportionments are calculated having regard to net internal floor areas. A weighting has been applied to the areas for the Cash & Carry and restaurant units to reflect the benefit of the services and intensity of use.
